Evil Knievil is one of Britain's most feared short-sellers and best known spread bet trader. THREE times a week he reveals to faithful diarist his latest thoughts on trades. His diarist then publishes and takes full responsibility for the contents.

Sophisticated private investors seem to agree that t1ps.com offers a favoured service, according to respondents of a ShareScope customer survey. The survey revealed that, among respondents who use a tipping service, 21.6% chose t1ps.com. This was m

than twice the proportion who used the next most popular service, which received 9.4% of the votes. I believe that the ShareScope survey illustrates that t1ps.com, although it has a smaller customer base than some of its rivals, attracts serious investors who are prepared to invest in software to enhance their portfolios.

t1ps.com's popularity can be credited to the trust in expert advice it offers the sophisticated private investor. The site boasts a number of well-known industry names offering commentary, advice and, in the case of Knievil, an irreverent look at the market. Tom Winnifrith, Editor of t1ps.com, boasts an average gain per tip of 68% over the 7 years since his website was launched.

Tom says: "We only make 20 tips a year and that allows my team to undertake very detailed research. We attract unashamed value investors with a cautious style.

The tips given here are of necessity, general. They cannot relate to the individual circumstances of investors. Anyone considering following the recommendations contained here should seek independent advice from a Financial Services Authority authorised Stockbroker or Financial Adviser. So, while we would not wish to reduce our liability under the FSA regulatory regime, we cannot otherwise be held liable if individuals suffer losses through following tips contained on this site. The value of investment can go down as well as up. The past is not necessarily a guide to future performance. Investing in equities can lose you part or all of your capital although the potential returns are theoretically unlimited. The difference between the buy price and the sell price for smaller company shares can be significant. Profits from dealing in shares may be liable to tax - the level of tax and bases of reliefs from Tax are subject to change. Changes in the rates of exchange may have an adverse effect on the value or price of an investment in sterling terms if it is denominated in a foreign currency.

Some of the shares recommended on this site will be smaller company shares. By their nature such investments can be relatively illiquid and thus hard to trade. And that makes such investments more

high risk than larger company shares. t1ps.com defines a smaller company share as any stock trade AIM or Ofex or which has a market capitalisation of less than £300 million.
